(SMART BOT)

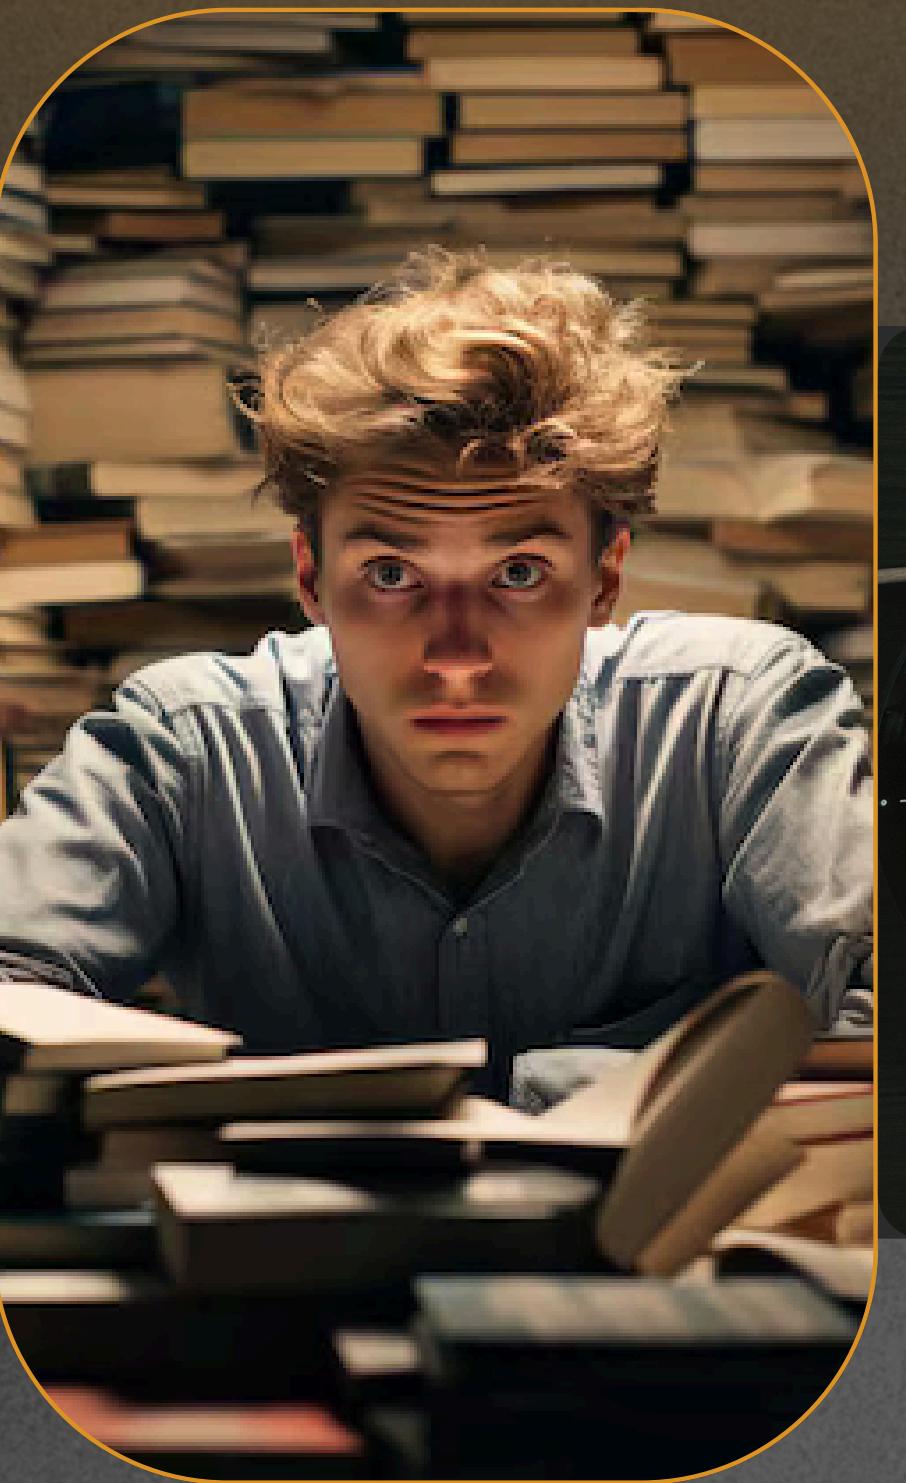

THE PROBLEM

THE SEARCH STRUGGLE

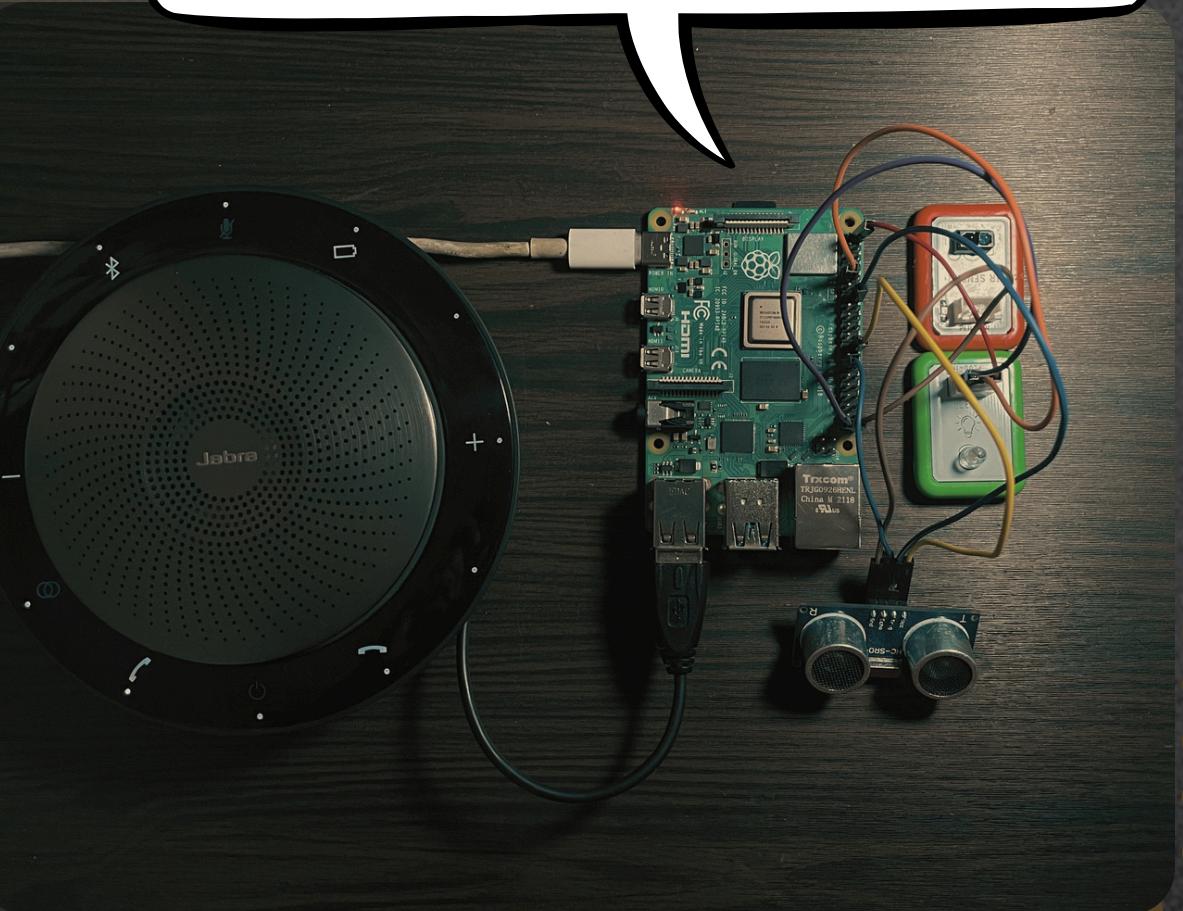

Students struggle to find academic answers online, bouncing between multiple sources. It's time-consuming and overwhelming.

EXCESSIVE SCREEN TIME

Too much screen time adds to student stress. Constant device use hurts focus and strains eyes.

But I can help you!

Your Academic Companion

BENi is a ChatBot that TALKS designed for students to get academic answers through conversation.

SPEAK TO ASK

GET VOICE ANSWERS

WITH GENERATIVE AI
(SMART BOT)

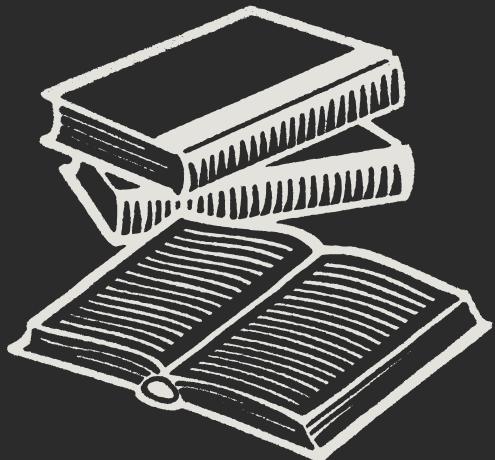

Conversational Learning Experience

BENi offers a conversational learning experience, allowing students to interact naturally through speech.

Whether it's clarifying doubts, understanding concepts, or seeking guidance, BENi is readily available to provide comprehensive academic support.

Unique Selling Proposition (USP)

TRAINED ON CURRICULEM

BENi boasts a vast database trained in curriculum books, ensuring accurate and comprehensive responses to academic queries.

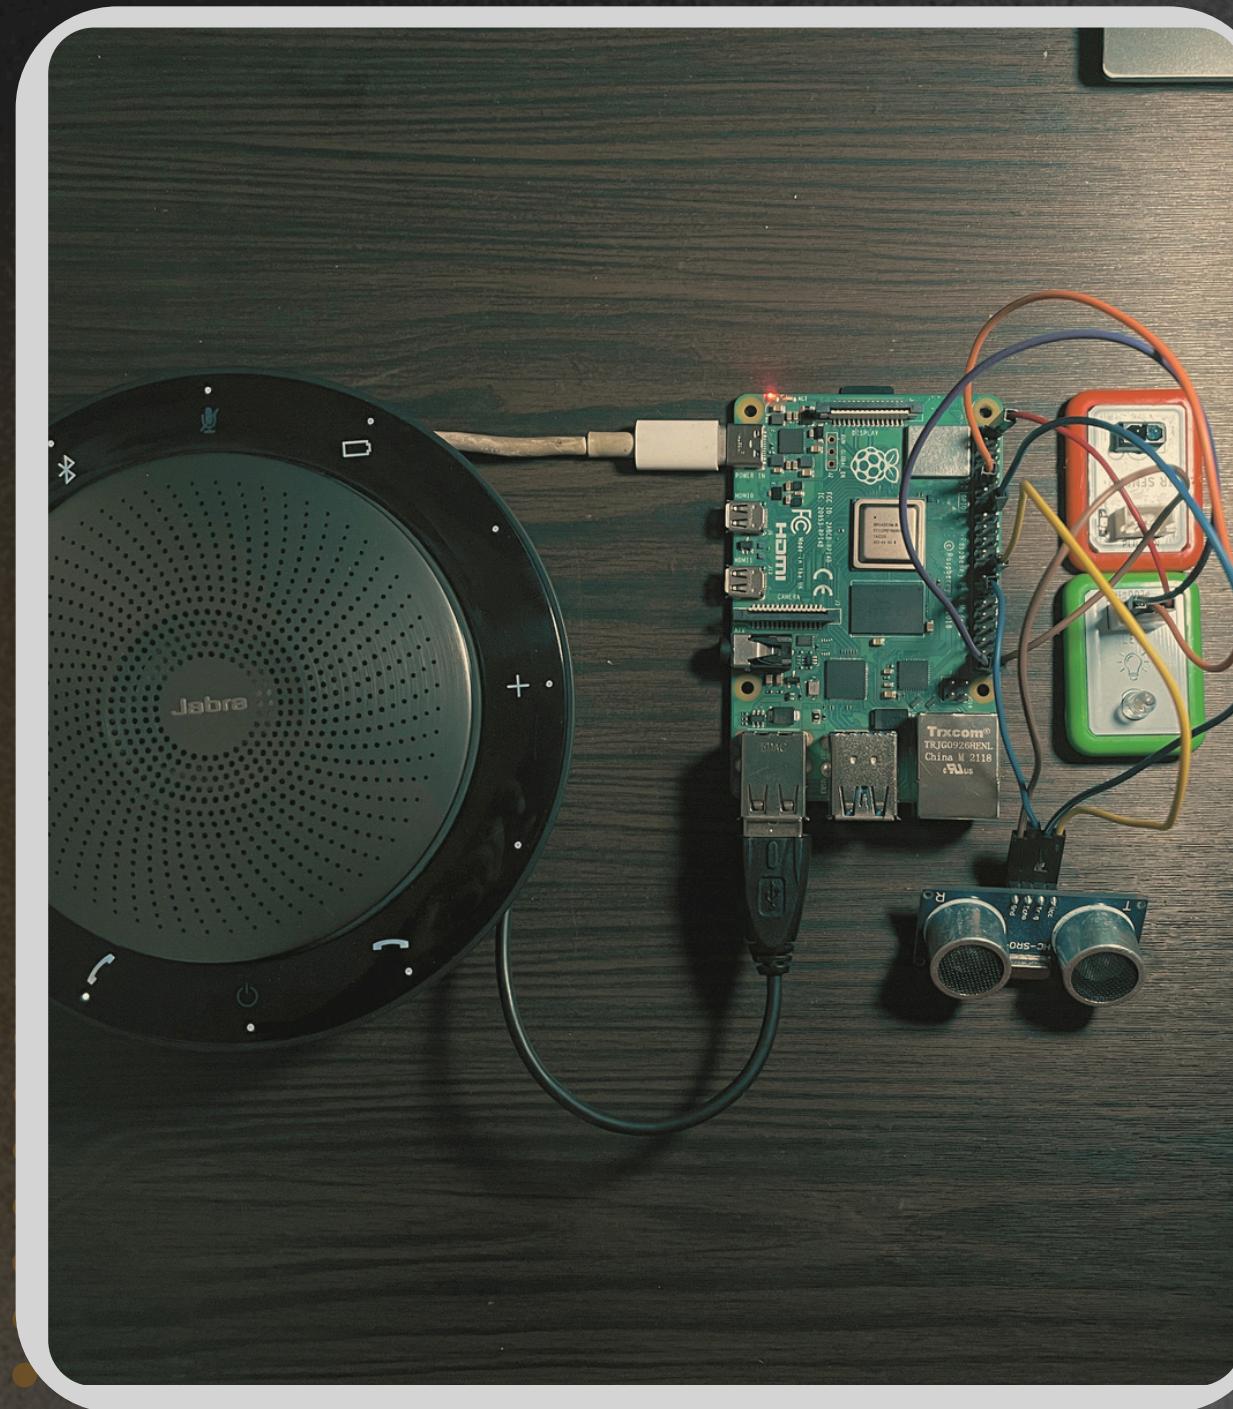

PERSONALIZATION

With BENi, students can personalize their learning journey by uploading their own textbooks, enabling precise and tailored responses to their specific questions.

NO - SCREEN

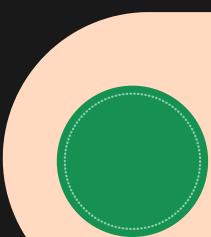

Device with physical hardware, no screen.

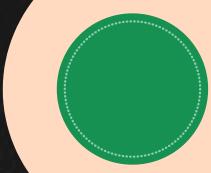

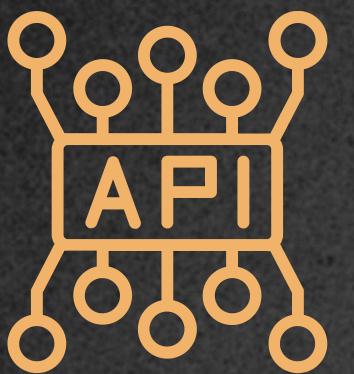

BENi eliminates the need for multiple devices and reduces reliance on screens.
